

MORNING APPEAL

WEDNESDAY.....JUNE 5

Rev. Gardner, editor of the Prohibitionist, in a paper read at Reno, said: "I do not believe in looking much on the dark side, but in this case I can see but little of the bright side. Along moral suasion lines I know of but one reformation during the year in the State."

The Prohibition fight was in very good shape once, until Bro. Gardner took a hand in the lottery fight, and while he was working at that the brands he had snatched from the burning all got away. One thing at a time, Bro. Gardner.

There is a class of men, increasing every year, who for a consideration will besmirch a mine or land it to the skies. These fellows talk flippantly of large sums of money, examine things with owl's gravity, make a few notes with ostentation, and go off to write a "report." They don't know any more about mining than a cross-eyed blow-fly knows about the aurora borealis, but, like that industrious pest, they make a deal of trouble all the same.—Homer Index.

A newspaper reporter, in the guise of a confidential agent for an Illinois watch manufacturing concern which is mixed up in the jewelers' trust, managed to learn from the president of another watch company that \$50,000 in all had been contributed by the various combinations of the State to defeat an anti-trust bill pending in the Legislature. As a result the bill has been shelved in the Senate.

A Mine Horror.
GRASS VALLEY, June 4.—A fearful accident occurred on the 1000 level in the Idaho mine at 5 o'clock yesterday afternoon. The night shift had just gone down when the fire broke out over the engines run by compressed air at the 1000 level station. The men went bravely to work to extinguish the flames and soon had them under subjection, but the lower levels of the mine were soon filled with gas and the lights were extinguished, rendering it impossible for human life to exist.

The miners rushed to the top and all save a few reached the surface in safety. Superintendent Edward Coleman, who had just come to town, rushed back to the mine and with several others descended into the bowels of the earth to help rescue the unfortunate men who were still under ground. The news soon came to the surface that the fire was all out and that there were no men down there in danger.

Meanwhile a crowd of men, women and children had gathered at the mine and soon the wildest excitement prevailed, when the cage was brought to the surface bearing Superintendent Coleman and his companions in an unconscious condition from partial suffocation. Medical aid was summoned and a corps of physicians was soon at the scene to administer to the wounded and apparently dying. Those who were brought to the surface first soon became conscious, but the next cage brought up more men who were thought to be dead, but they are alive and improving.

The third cage brought to the surface the sickening sight of young Frank Carter, one of the underground engineers, who had bravely fought the flames and was carried to the cage while it was ascending. Carter fainted and his head fell between the cage and the shaft timbers and the top of it was almost completely taken off.

Thomas Dunstan and John Ralph are yet in the mine and no one knows their fate, but rescuing parties are searching for them.

The dead man, Frank Carter, was the nephew of the foreman of the Idaho mine. He was 25 years of age, married and had one child.

Chief Engineer Mitchell sent out two horse carts from town to aid in extinguishing the fire.

The work of recovering bodies from the Johnstown disaster still continues.

Jack the Ripper is again at work in London.

I am breeding all of my Gibraltar fillies to him. He is very speedy, and has shown quarters in 25 seconds and halves in 1 12. He has got a record of 2 40, but if he had not hit one of his ankles, and had to be stopped in his work, would have got a record in 2 15 or 2 16 sure.

PEDIGREE.

Triumph by Prompter, Prompter by Wilson's Blue Bull, the sire of more horses with records from 2 15 to 2 30 than any horse that ever lived. McL. E. Clement, Secretary of the Missouri Trotting and Racing Horse Breeder Association in writing to Dr. Hicks, of Sacramento, owner of Prompter, says that he would rather breed to Prompter than any Stallion that is alive today. Triumph's dam is the celebrated St. Clair mare, Lady Brighton, owned by Mr. M. Toomey of Sacramento. His dam is now over 20 years old and can trot in 2 40 any day in the week. Senator Stanford in his catalogue of 1887 was breeding to 26 St. Clair brood mares and the most of his horses that have made the best records for 2 3 and year olds are out of St. Clair mares, namely: Fred Crocker dam by St. Clair, two year old record 2 23 1/2; Bonito, dam by St. Clair, 2 year old record 2 23 1/2; 3 year old record 2 15 1/2; Manzanita, dam by St. Clair, 4 year old record 2 16 fastest on record.

I have got 400 acres of pasture land enclosed and mares sent in care of me on the cars will be taken to the Ranch and bred a good care taken of them. Pasture, Two dollars per month, or will keep them up for \$30 per month as I have over 100 fine box stalls. Accidents and escapes at owner's risk. There is a fine race track on the Ranch and I will take horses to train or colts to break at reasonable rates. I also have a few Gibraltar colts to sell. If you want a good colt can sell you one cheap. Positively no shooting allowed on the premises.
